

On the Subject of Logging

This module single-handedly ruins the whole point of the game.

NOTE: This module is intended for practice and/or testing and should not be used on a serious bomb.

This module cannot strike.

- This module is written by a bad programmer. Abuse this by causing an `IndexOutOfRangeException` by pressing back or next past the page limit.
- At any time, view any other module's log output by clicking on their name. Cause an `IndexOutOfRangeException` to fall back to the main menu.
- The module will log whenever the user uses this module to read log entries.
